SOLUTIONS

DELIVERING MEANINGFUL VALUE  
IN ICT & SECURITY SOLUTIONS

# ABOUT US

HUTAIB is an end-to-end provider of ICT and security systems. It has rapidly expanded its scope of offerings to include high level Surveillance and Security systems, Time Attendance and Door Access Systems, Structured Cabling and Network and Low Voltage systems for Commercial, Government and Industrial sectors across UAE. For any and every enterprise level or personal level security, surveillance and ICT needs, you can rely on HUTAIB's extensive supplier network, high degree of focus on quality and seamless integration with client's existing setup. This helps us to deliver meaningful value in ICT & Security Solutions.

The unique blend of experience and skills helps HUTAIB come across as a strategy partner to help design, develop and deploy high performance systems and solutions for your enterprise or residential needs. This helps us in enabling a top quality delivery on time and within budget.

HUTAIB has on its rolls some of the finest minds in security and ICT systems. They include highly experienced security specialists, design engineers, service and maintenance professionals. Their competencies are geared towards a core end objective - to provide HUTAIB's clients with maximum RoI, due to decrease in costs and increase in efficiencies.

## WHY HUTAIB INFOTECH SOLUTIONS?

Some of the unique service delivery characteristics that give us a competitive edge include –

- 1 Regular service checks to improve the life of the product or solution
- 2 Applications and devices that are not only easy to use but also offer tremendous value for money
- 3 Staff that revolves round 100% client satisfaction
- 4 Customized and personalized services for every client based on their exact needs

Our sales and installation team too pitches in with their skills. Rather than leaving it up to the customers, our installation team suggests the best solution to address a problem at hand. A small instance would be the security installation. We help you to determine the apt installation angle, area and points that maximizes your coverage and monitoring ability. These factors help us stay true to our business objective “to deliver quality driven IT Solutions – in a simplified and satisfactory form”

# MISSION, VISION AND VALUES

HUTAIB strongly believes in its clients' growth driving its own organizational growth. Hence our mission statement and vision revolves solely around adding value to our clients' lives – either personally or professionally.

## MISSION

“To become a global enterprise with strong emphasis in the field of Electronic Security & Surveillance Systems led by focus on client, innovation and servicing excellence”

## VISION

In order to meet the above vision, it is our mission to enabling SMB businesses toward the right growth path, by delivering “Reliable, innovative, Competitive and high quality” electronic security& surveillance and staff productivity solutions. Our R&D endeavors in adopting newest technology trends helps us stay ahead competitively and avoid obsolescence

## VALUE

In order to stay true to our mission, we strive to ensure the highest level of customer satisfaction with every solution, every product, driven by focus on high quality work. Our integrity is paramount to our operation and we strive for honesty, transparency and legal compliance in every project we undertake.

## SOLUTIONS PORTFOLIO

### SECURITY SURVEILLANCE SYSTEMS

HUTAIB's solutions in security and monitoring capabilities, helps businesses and homeowners enjoy complete peace of mind while staying in total control of their assets and people.

Our clients' security needs are met by supply of high end and trusted security services such as CCTV Surveillance, Time and Attendance monitoring, Gate barriers, Biometric readers, Intrusion Alarm systems and Intercom systems.

### USP OF HUTAIB'S CCTV SOLUTIONS

Some reasons why your home or office absolutely need CCTV solutions is to

- ✓ Deter theft
- ✓ Avoid vandalism
- ✓ Monitor high risk, privileged or secure areas
- ✓ Ensure quality control
- ✓ Decrease liability (e.g. fraudulent injury claim)
- ✓ Improve safety for staff in areas such as parking and other facilities
- ✓ Keep recordings for legal compliance or investigations
- ✓ Ensure smooth running of remote processes

We design, supply, implement, upgrade, maintain & support cost effective and viable CCTV Security Solutions for our valued clients, thus making it a very good investment. Even after installation, our support extends to deliver superior maintenance and support. This end-to-end security solution expertise is backed up by Technical Support & Assurance Services.

## TIME ATTENDANCE SOLUTION

HUTAIB's provides advanced Time Attendance Solution that helps HR and payroll divisions to function at their optimal best. With regular monitoring of time-in and time-out automatically you need not be dependent on people to give insights on attendance, punctuality, salary processing based on attendance or even control labor costs. Here are some ways in which your business remains profitable due to time monitoring –

- ✓ Automated time and attendance systems ensures zero error as compared to error-prone manual systems
- ✓ Management can monitor employee clock-in and clock-out times, break times, shift changes and more. This means that it will be harder for employees to commit time-related malpractices such as overextending break times, time card fraud and buddy punching.
- ✓ You can choose solutions ranging from swipe card systems to biometric devices. So depending on your company's budget, the number of employees you manage and the size of your physical workplace, you are guaranteed to find a time and attendance system that works exclusively for your business.
- ✓ It enables an employer to have full control of all employees' working hours. It helps control labor costs by reducing over-payments, which are often caused by transcription error, interpretation error and intentional error.
- ✓ A time and attendance system protects a company from payroll fraud and provides both employer and employees with confidence in the accuracy of their wage payments all while improving productivity.
- ✓ Time Attendance system enables to prepare a detail report of employees who are not holding up to your standards of employment.

## DOOR ACCESS CONTROL SOLUTIONS

Here are some distinct benefits of door access control system that has made it popular in office setup as well as residences:

- ✓ Access control is a simple way to increase security and efficiency in any home or organization.
- ✓ Access control system completely eliminates the need to carry multiple keys for multiple rooms in larger vicinities. On losing of key the lock has to be replaced for the fear of some intrusion. However, in case of access control system the lost access cards can be deactivated with immediate effect.
- ✓ With access control system there remains no chance of leaving any door or entry point locked intentionally or unintentionally. The doors with access control system get automatically locked once they are closed.
- ✓ Households can control the entry of domestic staff with the help of this system. While they can allow them to enter in the living room or lobby, the bed rooms can be kept out of their reach.
- ✓ Access control system is innovative and pioneering enough to allow or forbid the entry through various doors in a customized way. Entry can be customized as per the timing too.
- ✓ The access control system is easy to use for even the housewife of the residence. The access control service providers give a full-fledged training to dwelling owners for maximum productive use.
- ✓ You can save money and improve security by automatically managing access at entrances with the swipe or scan of an access control card.

# FINGERTEC

## AN END-TO-END TIME MANAGEMENT SYSTEMS BROUGHT TO YOU BY HUTAIB

We are the leading supplier of FingerTec Time Attendance systems and time tracking for small to medium-sized businesses. We enable delivering complete solutions featuring time and attendance software and biometric devices.

We also provide economical yet reliable time and attendance software through cloud-based software as a service (SaaS) hosted solutions. Our web-based solutions offer a number of advantages to organizations of all sizes, including reduced implementation costs, fewer iterations of maintenance and support concerns, as well as instant updates and upgrades.

- ▶ Our products are perfect for companies looking for an economical PC based and feature rich Time and Attendance software and terminal solution. With these solutions your company will have an immediate ROI simply by eliminating payroll errors and reducing time consumed by the Accounts Department to manually calculate the Attendance.
- ▶ Our products are easy to use, powerful and provide various insights in form of comprehensive reporting when you automate your company's timekeeping and attendance tracking. With built-in setup wizards and simplified daily operations, the Time & Attendance solutions completely eliminate paper time sheets.

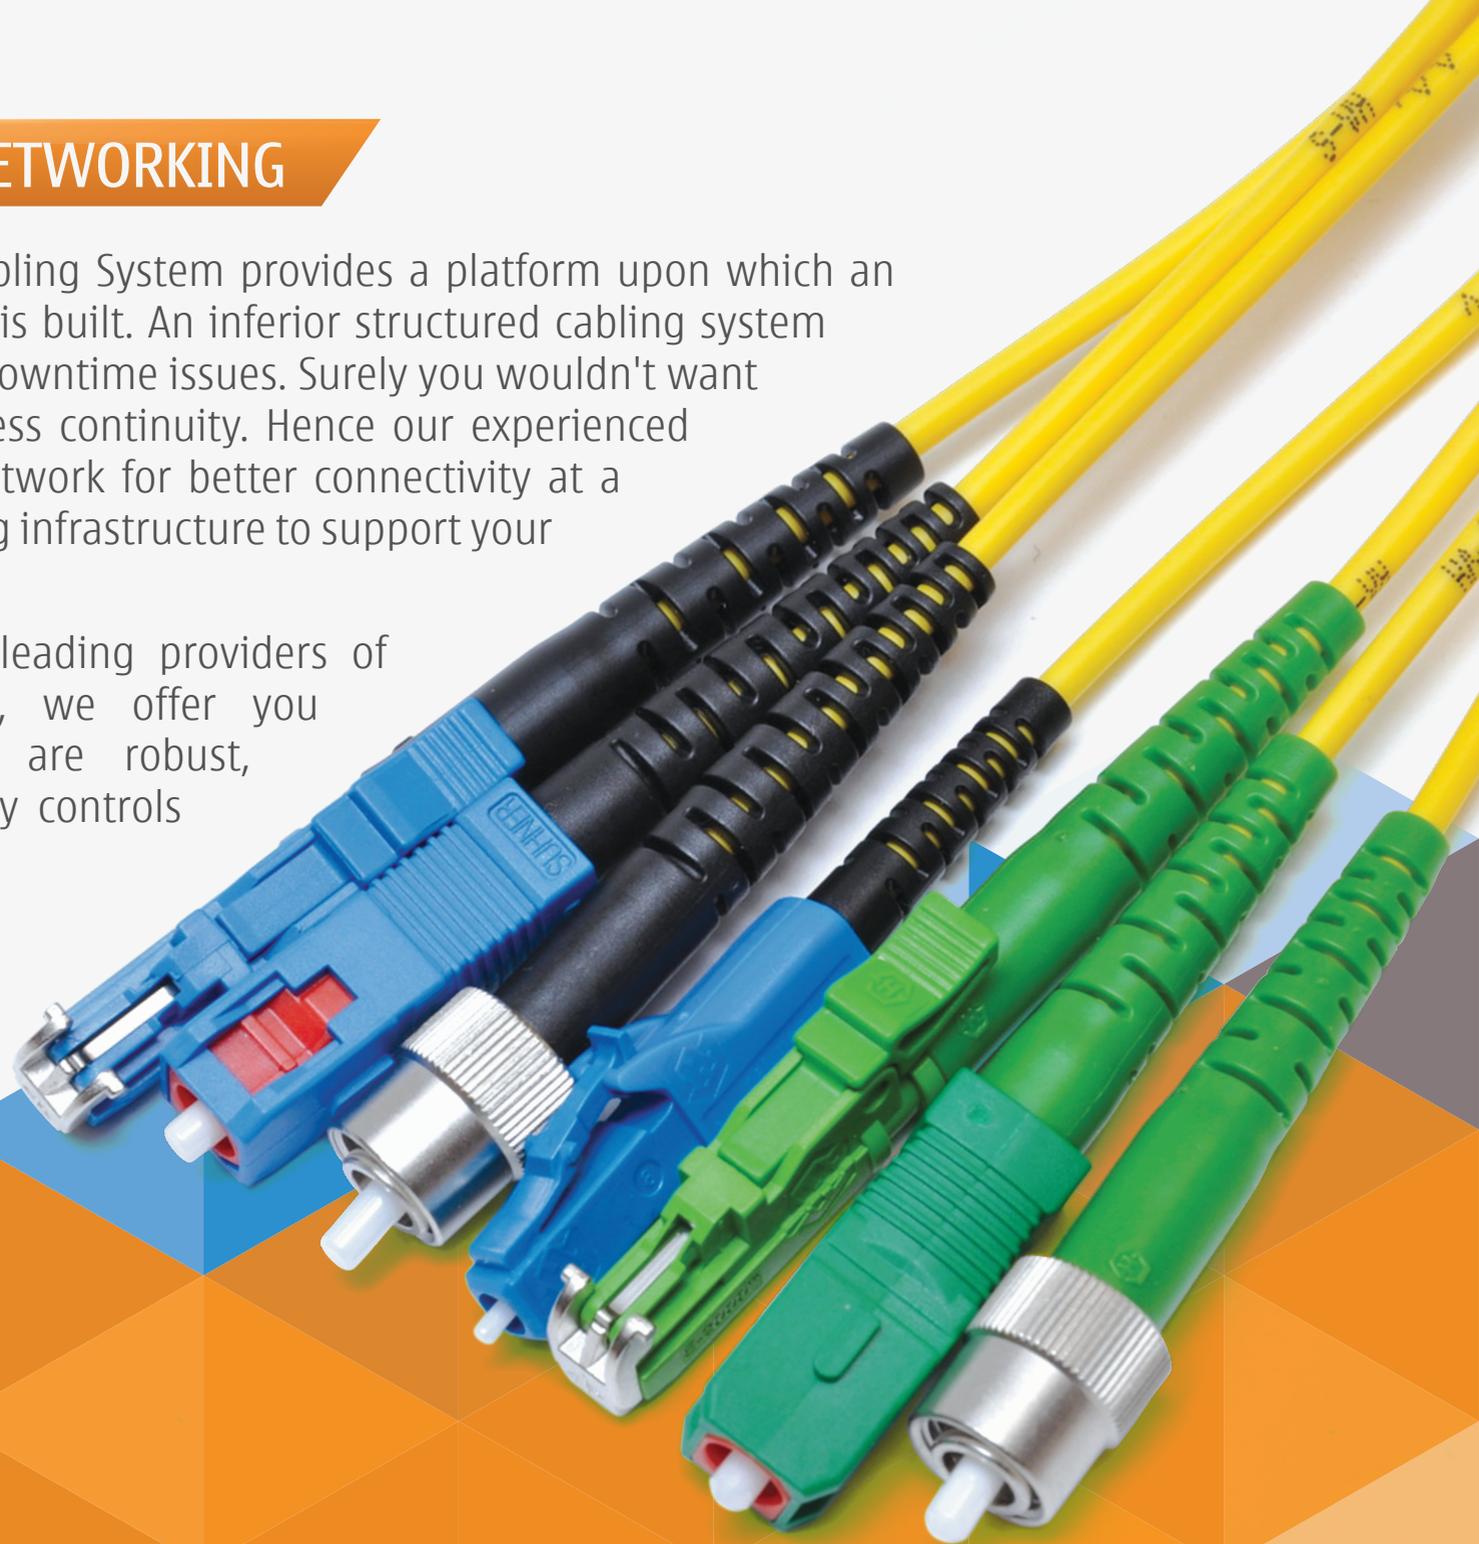

## WHY HUTAIB INFOTECH SOLUTIONS?

- 1** We are the leading supplier of FingerTec Door Access Control systems for small to medium-sized businesses. We help in delivering complete solutions featuring Door Access Control software, Door Lock Units, Remote Control and biometric systems.
- 2** Our Biometric Systems do not keep an image of the fingerprint but a template. A template is basically a number that is calculated based on various characteristics of the fingerprint. This makes it impossible to duplicate based on image or photocopy of finger print.
- 3** We can integrate the access control system to time attendance system for a holistic employee management system.
- 4** We provides access control security systems to organizations of every size. You'll find it easy and affordable to integrate your photo ID, access control, time and attendance and other functions into a single card.
- 5** We design, supply and deploy customized Door Access control solutions that combine conventional methods and face recognition systems to create a new holistic experience.

## STRUCTURED CABLING & NETWORKING

A thoughtfully set up Structured Cabling System provides a platform upon which an overall information system strategy is built. An inferior structured cabling system can be a cause for 70% of network downtime issues. Surely you wouldn't want this issue to impact for your business continuity. Hence our experienced staff can help you upgrade your network for better connectivity at a nominal cost and get a robust cabling infrastructure to support your ever-increasing bandwidth usage.

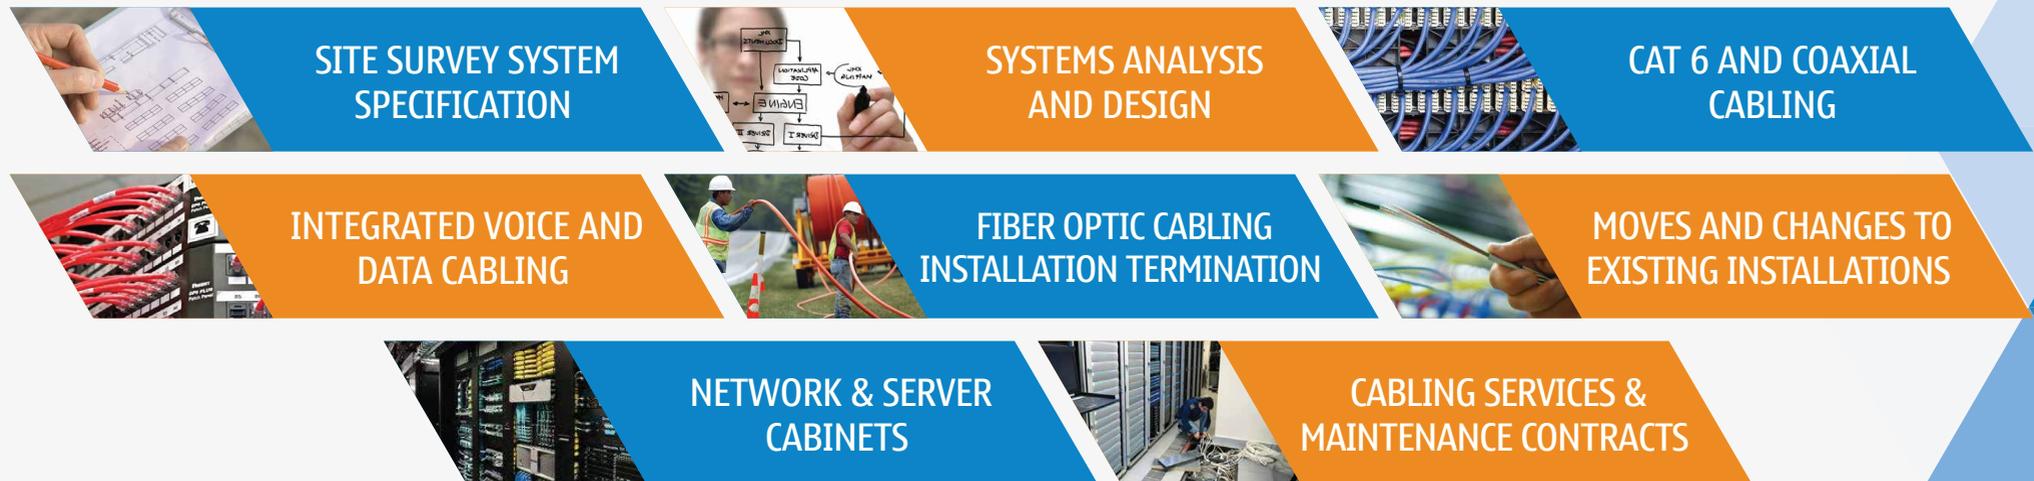

Working closely with the world's leading providers of end-to-end connectivity solutions, we offer you structured cabling services that are robust, scalable, adhere to stringent quality controls and surpass industry standards.

## USP OF HUTAIB'S STRUCTURED CABLING SYSTEM COMPETENCIES

- ✓ We provide an 'end to end' service, right from design, development, as well as supply of parts, actual implementation and technical support.
- ✓ We design and build cabling infrastructure systems that support multiple voice, data, video and multimedia systems. We will help you evaluate, design and install the optimum integrated system based on exclusively your organisational needs.
- ✓ We provide robust infrastructure cabling of the highest degree of quality. We have the resources to carry out intricate installations of extra low voltage cabling for applications involving Fiber Optics, Telephony, Data, Building Automation, CCTV/SACS, Fire Alarm, Lighting controls, Metering Systems, CATV/HITV Network and much more.
- ✓ Our cabling team has the experience to handle all communication devices and applications, such as voice, data or video.
- ✓ Every project is overseen by a skilled supervisor who will ensure that the installation is carried out as designed and is completed on time. We also ensure that vital changes are tracked and documented along the way, thus adhering to the highest industry standards.
- ✓ Once the system is installed, all cabling is tested and documented electronically for best outcomes.
- ✓ Our cabling systems are backed by the best warranties in the market ranging from 15 to 25 years; these warranties cover all components and provide current and future application assurance.
