SATKHIRA ELECTRICAL & SANITARY TRADING

CHAIRMAN MESSAGE

It is my pleasure to introduce our new venture Satkhira Electrical & Sanitary Trading to the people of Abu Dhabi and UAE. we are in supplying Electrical, Sanitary, Tools & Safety Materials

I have seen the struggle of our clients to get quality home solution products and time consumed by them to get quality products. So, we came up with SES, to get all the home solutions under one roof. it's been 10 years now in construction business so we understand the needs of our clients and we

understand their tastes and preferences and have also seen their struggle to get the quality home solution needs. So now the idea is to give all your worries & tensions to us regarding any products related to home solutions and we will solve it. Our customers should be worry-free and satisfied.

We, from the very first day of our existence, kept the 'customer' at the centerfold of our organization. It is building the trust with our customer that has always driven us to be the best- at what we do. My vision in near future is to be a #1 brand with our quality products and services and to be every customer's first choice.

Al Istiqama Group is now poised to take on the next challenge - developing Satkhira Electrical & Sanitary Trading of Excellence in providing quality products and services to customers of our region.
